COVID-19 QUARANTINE

The Centers for Disease Control and Prevention (CDC) defines quarantine as a procedure used to keep someone who might have been exposed to COVID-19 away from others. Quarantine helps prevent the spread of disease that can occur before a person knows they are sick or if they are infected with the virus without feeling symptoms. People in quarantine should stay home, monitor their health, and follow directions from their state or local health department.

Date: ___/___/___

Name: _____

I hereby acknowledge the following to be true.

I have abided by the above noted guidelines regarding quarantine and have successfully and in good faith completed a 10-day quarantine prior to returning to the Atchison, Kansas, campus of Benedictine College.

Signature of Affiant _____

Signature of Witness _____
